About Curtiss-Wright

Curtiss-Wright offers a comprehensive range of industry-leading fluid sealing technologies and services to commercial nuclear and fossil power plants, chemical, petrochemical, the Department of Energy, the Department of Defense, Original Equipment Manufacturers, and the industrial market. We are recognized as a “best in class” provider of fluid leak products and management solutions. Our numerous customer recognitions and awards include Utilities Services Alliance (USA), First Energy, and Constellation “Supplier of the Year” awards, as well as Nuclear Energy Institute (NEI) TIP awards for packing and graphite pressure seal technology.

Our sealing solutions are a blend of proprietary manufactured and distributed products including mechanical valve and pump packing, metal and fabricated gaskets, fasteners, and a wide variety of specialized fluid sealing products. Our state-of-the-art manufacturing facility operates under our commercial and nuclear QA programs. We are NUPIC audited to the requirements of 10CFR50 Appendix B Part 21.

Fastener Solutions

Curtiss-Wright can supply over 15,000 different types and styles of fasteners in any size or alloy, made to your exact specifications.

Threaded Rod

- Low Carbon Studs
- B7 Studs
- Low Carbon Rod
- B7 Rod
- Stainless Steel

Bolts

- Hex Head Cap Screws (Grade 2, 5, 8, 9)
- Structural A325, A490, Tension Control
- A307B
- Metric
- Carriage Bolts (Grade 2, 5)
- Plow
- U-Bolts
- Socket Head
- Stainless Steel

Anchors

- Anchor Rods
- Wedge
- Sleeve
- Drop-In
- Expansion

Nuts

- Stainless Steel
- Hex
- 2-H
- Heavy Hex
- Jam
- Locking
- Coupling

Washers

- Stainless Steel
- USS, SAE, Metric
- Fender
- Bond Sealing
- Structural
- Lock

Finishes

Curtiss-Wright offers fasteners in the following finishes:

- Zinc
- Yellow Zinc
- Plain
- Black Oxide
- Galvanized
- Blue Teflon
